SUMMARY

Platform engineer with 7 years across Indian IT services and Singapore banking, the last five running regulated banking workloads on Kubernetes. Deep Terraform and Vault experience, MAS-audited environments, follow-the-sun on-call. Returning to Bengaluru in September 2026 for family reasons; keen to apply regulated-cloud experience under RBI norms.

SKILLS

Platform: Kubernetes (EKS), AWS, Terraform, Vault, Istio, Karpenter

Observability: Prometheus, Grafana, CloudWatch, OpenSearch

Code: Python, Go (working), Bash

Regulated ops: MAS TRM controls, change governance, DR drills, audit evidence automation

EXPERIENCE

Senior DevOps Engineer — Straits Commercial Bank, Singapore

May 2023 – present

- Operate the container platform for retail-banking channels (60+ services, 4 EKS clusters) under MAS TRM change controls.
- Led the Terraform re-baseline of all platform infra: 100% of resources under IaC, drift alerts to zero.
- Built automated audit-evidence collection (Python), cutting quarterly audit prep from 3 weeks to 4 days.
- Ran twice-yearly DR failover drills across regions; last RTO measured at 22 minutes against a 60-minute target.

DevOps Engineer — Straits Commercial Bank, Singapore

Aug 2021 – Apr 2023

- Migrated 30 services from EC2 to EKS; introduced Helm-based deploy standards.
- On-call in a follow-the-sun rotation with the Chennai hub.

Project Engineer (Cloud Ops) — Wipro, Bengaluru

Jul 2019 – Jul 2021

- AWS infrastructure delivery for BFSI clients; night-shift production support rotation.

EDUCATION

B.Tech Computer Science & Engineering — NIT Warangal, 2015 – 2019

CERTIFICATIONS

CKA (2022), HashiCorp Terraform Associate (2022), AWS Solutions Architect Professional (2024)

LANGUAGES KNOWN

Tamil (native), English (fluent), Hindi (working)
