SUMMARY

Senior data scientist with 6 years in insurance analytics. Built and deployed churn, pricing and fraud models with measurable business impact. Recently leading an internal GenAI proof-of-concept and looking to move into LLM engineering full time. Notice period: 60 days.

SKILLS

ML: scikit-learn, XGBoost, feature engineering, model monitoring, A/B testing, SHAP

GenAI: OpenAI API, LangChain (POC level), embeddings, prompt design (internal pilot)

Stack: Python, SQL, Airflow, dbt, Azure ML, Power BI, Git

EXPERIENCE

Senior Data Scientist — Sanchay Life Insurance, Bengaluru

Mar 2022 – present

- Own the retention-model suite for 1.4M policyholders; targeted campaigns lifted persistency 1.8pp year-over-year.
- Led a 3-person GenAI POC: policy-document Q&A chatbot (LangChain + Azure OpenAI) piloted with 25 service agents; positive feedback, not yet productionized.
- Built model-monitoring dashboards adopted as the department standard.
- Present quarterly to the underwriting committee; translated model limits into pricing-policy changes.

Data Scientist — Sanchay Life Insurance, Mumbai

Sep 2019 – Feb 2022

- Developed claims-fraud detection (gradient boosting) flagging 12% more confirmed fraud at equal review load.
- Automated monthly reporting pipelines in Airflow, saving the team 3 days/month.

EDUCATION

M.Sc. Statistics — Savitribai Phule Pune University, 2017 – 2019

B.Sc. Statistics — Fergusson College, Pune, 2014 – 2017

COURSES

DeepLearning.AI "LLMs as Operating Systems" (2026), Azure AI Engineer Associate (2025)

LANGUAGES KNOWN

Marathi (native), English (fluent), Hindi (fluent)
