SUMMARY

Analytical and curious data analyst with 4 years turning business data into dashboards and insights. Strong Python (pandas) and SQL. Interested in financial markets and looking to move into a more technical quantitative role. Notice period: 30 days.

SKILLS

Analytics: Python (pandas, matplotlib), SQL, Tableau, Excel, dbt (basic), Jupyter

Other: C++ (one university course), statistics (descriptive, regression), Git (basic)

EXPERIENCE

Data Analyst — FreshKart Retail, Bengaluru

Sep 2022 – present

- Build sales and inventory dashboards in Tableau used by 40 dark-store managers weekly.
- Automated weekly reporting with Python/pandas, saving approx. 6 hours per week.
- Analyzed promotion effectiveness; findings changed the festive-season discount calendar for 2025.

Junior Data Analyst — MoveMetrics (mobility analytics), Kochi

Jul 2021 – Aug 2022

- Cleaned and analyzed city bus-network usage data; ad-hoc SQL for client questions.

EDUCATION

B.Tech Computer Science (CGPA 7.4/10) — CUSAT, Kochi, 2017 – 2021
