SUMMARY

Staff engineer with 11 years building and modernizing transaction-heavy platforms, the last four as technical lead of a 12-engineer migration program (no direct reports, full technical accountability). Ready to move into formal engineering management: I already do the roadmap, stakeholder and mentoring work — I want the people responsibility that goes with it. Notice period: 60 days.

SKILLS

Technical leadership: Migration architecture (strangler pattern, CDC), technical roadmaps, design review chairing, incident command, mentoring (8 engineers coached, 3 promoted)

Engineering: Java, Kotlin, Kafka, PostgreSQL, AWS, Terraform, observability (Grafana/Prometheus)

Delivery: Quarterly planning with product/ops stakeholders, risk registers, vendor technical evaluations

EXPERIENCE

Staff Engineer, Platform Modernization — SettleChain Technologies (post-trade fintech), Bengaluru May 2022 – present

- Technical lead of the settlement-engine replacement (12 engineers across 3 teams): architecture, sequencing and the reconciliation-first migration approach.
- Designed the parallel-run framework that compared legacy and new engines on 100% of production traffic for 6 months before cutover; final discrepancy rate 0.0004%.
- Chair the org's design-review board; mentored 8 engineers of whom 3 promoted to senior.
- De-facto stand-in for the EM during a 4-month absence: ran 1:1s, quarterly planning and two hiring loops.

Senior Software Engineer — Suvarna Bank, Bengaluru Aug 2018 – Apr 2022

- Built instant-payments services (Java/Kafka); led the technical side of the bank's UPI switch migration for the payments team.
- Ran the guild that standardized CI/CD across 14 backend teams.

Systems Engineer → IT Analyst — TCS (BFSI unit), Kolkata Jul 2015 – Jul 2018

- Core-system integrations for banking clients; earned the unit's top delivery rating twice.

EDUCATION

B.Tech + M.Tech (dual) Computer Science & Engineering — IIT Kharagpur, 2010 – 2015

LEADERSHIP DEVELOPMENT

Engineering-leadership program (2026), sponsored by VP Engineering; internal management-track endorsement on file
