SUMMARY

Engineering manager with 9 years in software (6 as engineer, 3 managing) currently leading a product team of 6 at a quick-commerce company. Strong on team health, hiring and iterative delivery; looking for a larger canvas and a mission with more weight than shopping carts. Notice period: 60 days.

SKILLS

Management: Team of 6 (hired 4), 1:1s/coaching, performance cycles, agile delivery, quarterly OKR planning, incident process ownership

Technical: Node.js/TypeScript, React, PostgreSQL, AWS (ECS), event queues (SQS), Datadog

Product: Close partnership with PM/design; experiment-driven delivery

EXPERIENCE

Engineering Manager, Checkout — FreshKart Retail, Bengaluru

Jun 2023 – present

- Lead the checkout team (6 engineers): hiring, coaching, delivery; team eNPS consistently top-quartile.
- Checkout conversion up 1.9pp through an experimentation roadmap with product; zero Sev1s in 18 months.
- Introduced structured incident reviews adopted by all 9 product teams.
- Promoted two mid-level engineers to senior with documented growth plans.

Senior Software Engineer — FreshKart Retail, Bengaluru

Mar 2021 – May 2023

- Rebuilt the payment-integration layer (PG failover across two aggregators); checkout availability from 99.7% to 99.95%.

Software Engineer — Mindtree, Bengaluru

Feb 2017 – Feb 2021

- Full-stack delivery for US retail clients; led a 3-person feature pod.

EDUCATION

B.E. Computer Science & Engineering — SJCE (now JSS STU), Mysuru, 2012 – 2016
